

## **TLC Day Care Potty Training Policy**

Potty training is a hot topic right now amongst our three year olds. Just a few things to point out during the process:

- No onesies please. Easy on/off clothing like leggings or athletic pants work best.
- If your child is dry at school for a period of two weeks and can verbalize the need to use the facilities for BOTH urine and BM, then feel free to bring them in underwear. If they are having accidents, continue to have them in pull ups and we will bring them to bathroom to "try".
- Bring lots of EXTRA clothes during this process, just in case. Please include socks, pants, shirts, and, underwear. You might even want to bring extra shoes.

We realize this process can be very frustrating, so we are here to help you along the way. Accidents do and WILL happen, however we want to keep the environment sanitary (avoid children stepping in pee). We also don't want to push the children if they are not ready because they will become frustrated and reluctant to let us know they have went or need to go.
